

RMV GEN IV

The revolutionary RMV GEN IV tactical armor system offers high-performance ballistic protection integrated in a fully functional and scalable design to meet the strategic needs of your specific mission. For immediate doffing of the vest, the RMV GEN IV vest can be rigged for three different styles of release. It also provides multiple points of adjustability for greater comfort and maximum freedom of movement. This gives it the versatility to adapt to any condition.

FEATURES

- Multiple release options including cable pull and SPRS Release allow you to select one of three available release position options
- Adjustable-plate height strap
- Built-in, over-shoulder cable/hydration routing
- Shoulder strapping system offers two points of adjustability
- Removable front flap features Kangaroo pocket that accommodates three AR15/M16 mag inserts
 - Hidden cable-routing openings
 - Internal cummerbund for enhanced stabilization
 - Bungee external cummerbund stabilizer
 - Ballistic Insertable cummerbunds
 - Hook and Loop attachment area for Collar Protector and Throat Protector
 - Release/Non-release throat and collar
 - All accessories have the ability to insert ballistics
 - Front and back, bottom-loading plate pocket accepts 8" x 10" or 10" x 12" hard-armor plates and ESAPI
