

SOB™

THE ORIGINAL COLLAPSIBLE DEFENSE SYSTEM

The SOB™ is the only personal defense system of it's kind, offering the ideal mix of ballistic protection and mobility. It is designed for easy transport and quick deployment. After all, armor is worthless if you can't take it with you.

Unlike hand-carry shields, the SOB™ offers full-body coverage against extreme ballistic threats. It is freestanding, allowing the operator to maintain use of both hands when necessary.

Our unique patented design allows the SOB™ to collapse into a single compact unit, small enough to fit in the trunk of a patrol car for transport or storage. When you need the SOB™ it can be fully deployed in less than 20 seconds!

Modular side panels can be attached when additional coverage is needed. Side panels can also function as hand-carry shields.

The SOB™ armor system is rigorously tested and certified to exceed NIJ Level IV requirements. Wheels, axles, and run-flat tires can also withstand multiple gunshots.
