

SOB TAC-WALL™

LIGHTWEIGHT MODULAR DEFENSE SYSTEM

The SOB TAC-WALL™ is a revolutionary new concept in personal defense brought to you by Special Ops Bunker. It is designed for efficient transport and quick deployment. After all, armor is worthless if you can't take it with you.

The TAC-WALL™ consists of lightweight ballistic shields that can be used independently or in combination. What makes the TAC-WALL™ incredibly versatile is that the individual shields can be quickly linked together, side-by-side, to form a continuous, freestanding ballistic wall. All shields are identical, so there is no limit to the number of shields that can be linked together.

The design team at Special Ops Bunker has gone over the top to make the TAC-WALL™ reliable and easy to use. Handles and other components are affixed using QD attachments and an integrated M-LOK rail system, making the shield easily adjustable for left or right handed use. A rigid carry bar allows for comfortable transport of multiple TAC-WALL™ shields. The hardware used to link TAC-WALL™ shields is entirely integrated into the system, so no need to worry about loose parts getting misplaced or lost during an operation. With the optional harness system, TAC-WALL™ shields can be hung from the side of a vehicle to provide ballistic protection for "soft-skin vehicle rescues". The TAC-WALL™ is also designed to integrate seamlessly with other SOB products such as the SENTRY™ defense system.

The TAC-WALL™ is available in 48 inch and 56 inch configurations.

Ballistic Options (NIJ 0108.01 Standard)

Level 3-A	(44 Magnum SWC 240 gr, 9mm FMJ 124 gr)
Level 3 Standard	(7.62 NATO Ball M80 149 gr)
Level 3 Ultralight	(7.62 NATO Ball M80 149 gr)
Level 3-Plus	(7.62x39mm MSC 123 gr, 5.56x45mm M855 62 gr)

Total Armor Area

TAC-WALL™ 48:	7.3 square feet per shield
TAC-WALL™ 56:	7.8 square feet per shield

Dimensions

	TAC-WALL™ 48	TAC-WALL™ 56
Single shield:	22" W x 48" H	22" W x 56" H
Three linked:	56" W x 48" H	56" W x 56" H

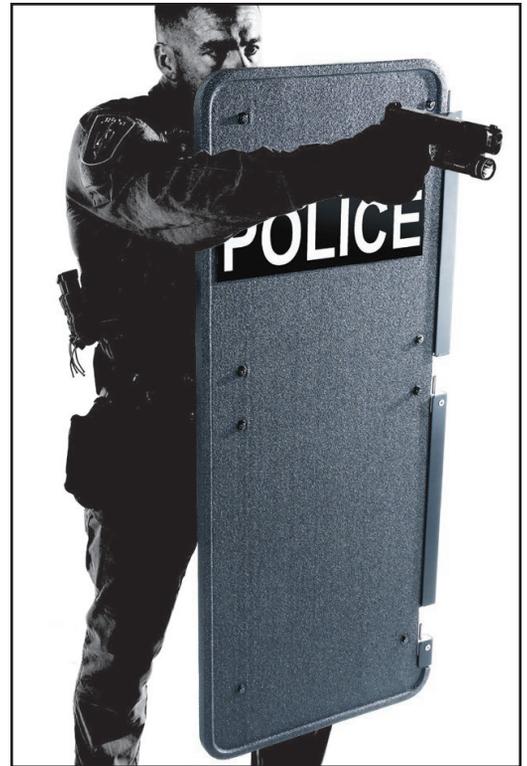

Weight

	TAC-WALL™ 48	TAC-WALL™ 56
Level 3-A:	25 lbs (11 kg)	29 lbs (13 kg)
Level 3 Ultralight:	28 lbs (13 kg)	34 lbs (16 kg)
Level 3 Standard:	34 lbs (16 kg)	40 lbs (18 kg)
Level 3-Plus:	46 lbs (21 kg)	52 lbs (24 kg)

Optional Features

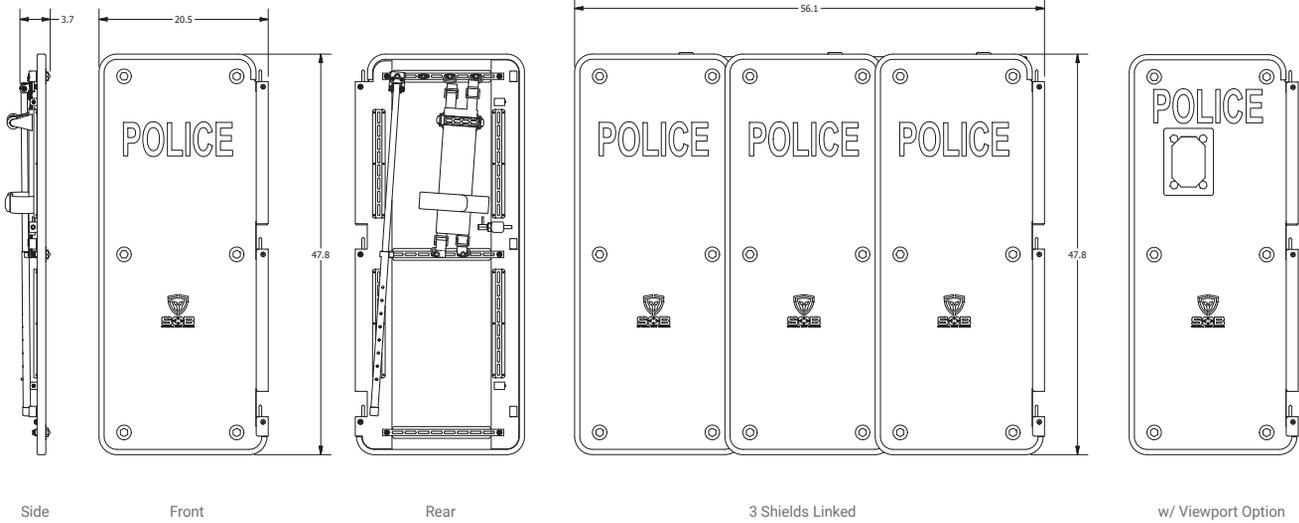

- FoxFury Taker B70 integral LED light, 1200 Lumens, Turbo-Strobe
- Case, holds up to 3 individual shields
- Crossbar carry system for carrying multiple connected shields
- Vehicle Attachment System
- Ballistic Viewport
- Sliding Gunport

Standard signage is "POLICE" unless otherwise specified when ordering
Finish: Black Polyurea with Black Powdercoat & Zinc Plated Hardware
