

COMPRESSION CARRIER (FEMALE)

Designed to provide increased covert protection, this ultra-lightweight, low profile concealable vest offers exceptional maneuverability and comfort. The proprietary, Thoracic Ballistic Contour (TBC) design naturally represents the human form with soft ballistic panel edges to achieve optimum low signature. The Compression Carrier follows the natural curvature of the body while the thermoregulating inner lining helps keep you cool, dry and comfortable.

FEATURES:

- Proprietary, Thoracic Ballistic Contour (TBC) design
- Contoured shape to accommodate the female form
