With DryRun™ Technology

Hi-Lite concealable carriers feature high performance comfort fabrics called DryRun®, which utilizes Sorbtek® permanent moisture management and environmentally safe A.M.Y.® antimicrobial yarns. Through its Catch / Move / Release technology, DryRun® provides up to 6 times more moisture movement capacity than standard nylon, polyester and other moisture wicking fabrics. Less bacteria also means less odor through A.M.Y.®, which permanently inhibits the growth of odor causing bacteria on fabrics.

Sorbtek®

A.M.Y.®

antimicrobial yarns for odor control
