

INTERNATIONAL GEN II - SLICK

The Point Blank International Gen II Slick carrier provides a tailored appearance and is designed to offer instant rifle protection by inserting hard armor plates in the front and back, top loading pockets. The side-opening design with ballistic overlap provides greater adjustability and protective coverage. Easy to don and doff, the International Gen II Slick provides exceptional comfort, fit and functionality.

Features:

- Self-Suspending Ballistic System (SSBS) helps prevent ballistic panels from rolling and sagging inside the carrier
- Back to front adjustable side opening
- Durable 500 Denier Cordura® exterior and interior fabric construction
- Top loading, external bellowed, hard armor plate pockets accommodate 8"x10" or 10"x12" plates in the front and back (Size Dependent)
- Removable ID panels in the front and back
- Elastic Stretch Side Closure
- Heavy duty reinforced A-Frame construction "man down" strap
- Internal Elastic Cummerbund for load stabilization
- Adjustable shoulder straps with VELCRO® brand fasteners
- Carrier exterior color options: Midnight Navy, Black, Coyote, OD Green, Ranger Green, Wolf Grey, Multi-cam, and Red
